

CAT-110

Data Sheet

Ankle Tracker Tracking Device

The waterproof CAT-110 is a small and light GPS locator designed for parolee, elderly, and lone worker tracking applications. It can also be used for animal/pet tracking application. Its built-in GPS receiver has superior sensitivity and fast time to first fix. Its built-in U-blox GPS module, GPRS module and low power ARM processor allows the CAT-110's location to be monitored in real time or periodically tracked by a backend server and mobile devices. System integration is straightforward as complete documentation is provided for the full featured protocol including alerts, geo-fence boundary crossings, low battery and scheduled GPS position.
