Battery

## WorldTracker SMS

## 2: Sign Up for Service

Go to [www.TrackingTheWorld.com](http://www.TrackingTheWorld.com) to sign up.

Please pay the activation fee and sign up for monthly service. The activation of your tracker will not be completed until these payments are received.

**PayPal**

TrackingTheWorld.com accepts payment through PayPal. With PayPal, you can choose to pay using your credit card, debit card, or bank account without revealing your credit card number or financial information.

Follow the instructions on the website and provide the required information. Be sure that the name associated with the PayPal account and credit card or bank account match.

There are several options for SMS service. Visit our website for current pricing. If you wish to use your own cellular service, you will be responsible for any airtime charges from your provider.

Trackers using the supplied prepaid T-mobile SIM card may add and or check on the amount of time left (each minute represents 1 ping or locate) by going to [www.t-mobile.com](http://www.t-mobile.com) and clicking on "Plans" and then to "Prepaid" or call 1-877-778-2106.

# WorldTracker SMS

## 3: Activation & Hardware Setup

1. Use your thumb to press the battery cap and then slide downward to open it.

2. Open the cap and remove the battery.

3. Insert in the SIM card.

4. Plug the tracker into a wall outlet. Turn the unit on and place it facing up near a window. DO NOT use any battery power at this time. Leave the unit turned on for a full 24 hours.

The tracker will be programmed remotely and activated within 1 business day after receipt of your order. We will notify you by email upon completion of the activation process.

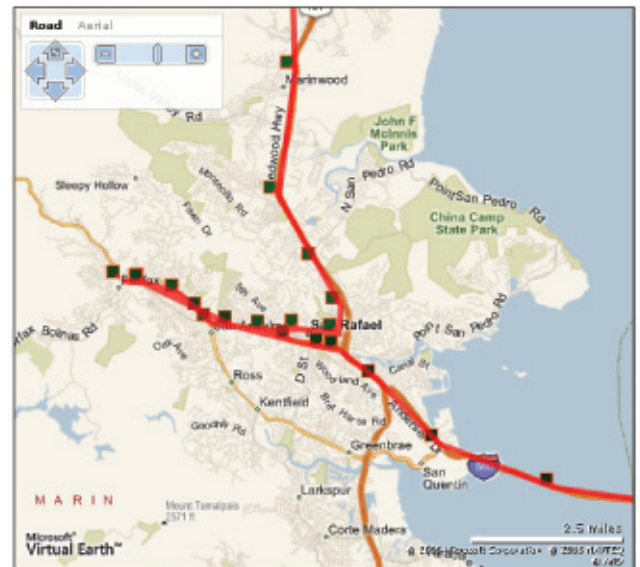

## WorldTracker SMS

## 4: Viewing Data

TrackingTheWorld.com requires Internet Explorer 8.0 or higher in order to function properly. To view dates, times and speed of records, click on a specific point.

Google Maps

Virtual Earth

<	May 2006						>
Sun	Mon	Tue	Wed	Thu	Fri	Sat	
30	1	2	3	4	5	6	
7	8	9	10	11	12	13	
14	15	16	17	18	19	20	
21	22	23	24	25	26	27	
28	29	30	31	1	2	3	
4	5	6	7	8	9	10	

Use the calendar to view historical data of the movements your target has made. Blue dates have data, white dates do not. To change the month click the arrows on the top left and right.

## WorldTracker SMS

## 5: Downloading Data

TrackingTheWorld.com automatically saves all location information sent by your tracker to our server. If you wish to keep backups of your tracking data or to use the data in other mapping programs, simply select the date you wish to download using the calendar. Then click on the "Download .csv data" link. The left photo shows the calendar from the current day and the right photo shows the calendar from 2 days before.

## 6: Microsoft Virtual Earth

You may have to change your Internet Explorer browser security settings in order for all features to be available. Select the “Tools” drop down menu, and click on “Internet Options...”

Select the “Security” tab.  
Then Select “Custom Level.”

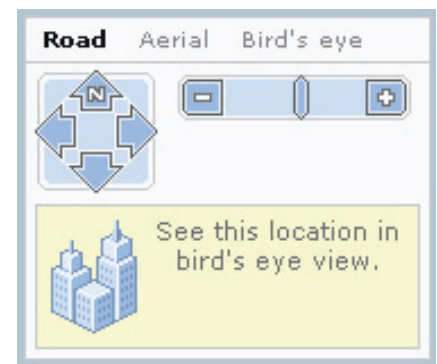

Make sure that the “Access data sources across domains” option is enabled.

Most major US cities have special “Birds Eye View” mapping. When Birds Eye View mode is available for an area you are viewing, the navigation tool shown to the right will change to allow you to switch to Birds Eye View.

No Birds Eye View Available

Birds Eye View Available

## WorldTracker SMS

## 7: Google Earth

To use Google Earth first download it from <http://earth.google.com>. After installation, select "Use Google Earth for your map" on your tracking page.

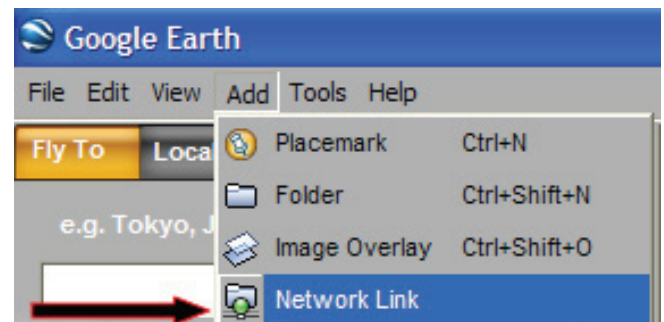

If you have any anti-pop up features enabled, please allow pop-ups from [www.trackingtheworld.com](http://www.trackingtheworld.com).

Copy the address under step 3.

3. Enter the link below in the LOCATION BOX

<http://trackingtheworld.com.r.seekdotnet.com/images/...kml>

Open Google Earth. Select the "Add" menu then "Network Link."

In order to keep the map updated with the latest location, set the time based refresh option to match the frequency of your trackers reporting intervals.

In the location field, paste the address you copied earlier.

Make sure there are no spaces before or after the address then click OK.

For help with using Google Earth's features, visit <http://earth.google.com>

## WorldTracker SMS

## 8: Reports

To obtain a complete activity report for a specific day, first change the map type to Virtual Earth.

Click the "Driving Report" link. The report will display in a new window. You must use Internet Explorer to view the reports

These detailed reports are divided into two sections: the "Driving Report" and the "Parking Report". Travel data includes street address, duration of stops, mileage, speed and other daily travel data.

These reports can be printed by selecting "File" and then "Print" from within Internet Explorer.

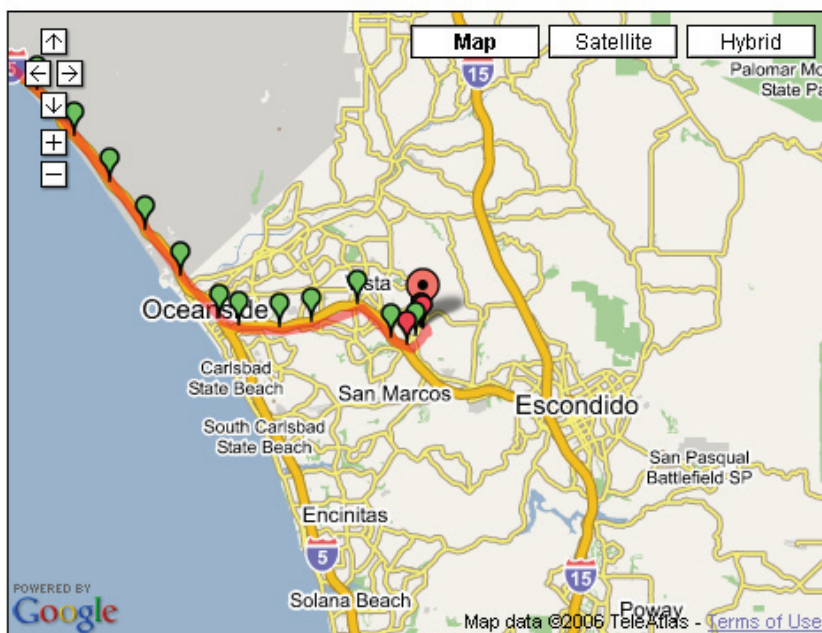

## WorldTracker SMS

## 9: GeoFences

A GeoFence is a virtual fence (a square around a certain location) that you can preset online. When the WorldTracker SMS enters/leaves the fence, you will receive an alert via email.

To set up a GeoFence, first click the “GeoFence” button.

Using the map view, zoom in and out to frame the area you wish to include in the GeoFence. When satisfied with the area covered on the screen, enter your e-mail address and click the “Set” button.

Frame fence in the mapview, enter email address, click SET.

If your cell phone supports email, you can receive mobile GeoFence alerts.

You can set multiple fences in as many locations as you desire.

You can also set a GeoFence in an area that the vehicle is not currently in and be notified when the vehicle enters that area.

Once a GeoFence has been breached, you will need to reset the GeoFence again for that area or it will not report.

## WorldTracker SMS

## 10: Polling Feature

Adjust the Interval of the Tracker's automatic Polling feature.

1. Click on the Poll button.

2. Choose one of the intervals, enter the password 0000 and click on Send. You can have it send its current location by choosing Poll, report by different time intervals, report by distance intervals, or stop reports.

Device:	wtsms
Credits:	1000
LastUD:	3/28/2007 4:24:19 AM
<input type="button" value="Send"/>	
PassWd:	<input type="text"/>
poll rptEvery2min rptEvery5mins rptEvery10min rptEvery15min	

3. Once you choose an interval, the tracker will keep reporting at that interval or stop reporting until you change this setting.

## WorldTracker SMS

## 11: Panic/SOS Alert

### **Panic Button:**

When pushed and held down for 2 seconds, the panic button will cause the unit to send 20 location reports, 2 minutes apart. These location points will display on your map page with an SOS alert message.

When the panic button is pressed, it will display an SOS message under the map and send that message to the email address that was given when the unit was activated.

## WorldTracker SMS

## 12: Troubleshooting

### **“My tracker has stopped sending data.”**

Retrieve your unit and replace or recharge the batteries. Try turning the unit off and plugging it into the 12-volt power adapter. Then turn it back on. If you still do not receive data, the unit may need to be reprogrammed. Please contact our support department for assistance.

### **“The blue “FIX LED” does not illuminate.”**

The unit should get a GPS location fix within a few minutes. If you do not receive a fix, take the unit outside and wait for a few minutes while the unit has a clear view of the sky.

### **“My tracking page displays yesterday’s data.”**

Data is not updated on the map until new positions are reported. Look at the time of the “last report” on the map. If the time of the last report is before midnight central standard time, the current data is from the day before. Your tracker may have stopped sending data, please retrieve the tracker for testing.

**If you continue to have trouble or need assistance with your tracker, please call our customer support department at 650-692-2816.**
